Chapter 1

Acknowledgements

Chapter 2

Preface

Chapter 3

Introduction to Relational Programming

Chapter 4

Introduction to miniKanren

4.1 Core miniKanren

4.2 Constraint Logic Programming

Chapter 5

Translating from Scheme to miniKanren

5.1 A-Normal Form

5.2 Defunctionalization

5.3 Pattern Matching

Chapter 6

Exploring the Chomsky Hierarchy

6.1 Regular Expression Matching

6.2 Deterministic Finite Automata

Chapter 7

Relational Exploration of Programming Languages Fundamentals

7.1 lexical scope

7.2 Relational Program Transformations

7.2.1 Continuation-Passing Style

Chapter 8

Relational Interpreters

8.1 Relational Scheme Interpreter

8.1.1 Generating Quines

8.2 Relational CESK Machine

8.2.1 Static Analysis using the Relational CESK Machine

Chapter 9

Type Inference

9.1 Type Inhabitation

Chapter 10

Probabilistic Logic Programming

Chapter 11

Implementing miniKanren

11.1 Unification

11.2 An Embedding in Scheme

11.3 A miniKanren Interpreter

11.4 A Meta-circular miniKanren Interpreter

11.5 An Abstract Machine for miniKanren

11.6 A Relational miniKanren Interpreter

Chapter 12

The Future of Relational Programming

12.1 Open Problems
